THE Hiogo News of the 9th contains the text of an address presented by the foreign community of Kobe to MrHarcus Flowers, H.M. Consul at that port, in the occasion of his departure for England. A testimonial reply and the address helf are both creditable to all concerned. Mr Flowers arrived here yesterday in the fumida Maru.

We have to acknowledge receipt of the "North China Desk Hong List, 1880," published at the Office of the North China Herall, Shanghal. The compliation has long held its own in the Northern ports, business of that year. and the present issue is fully up to Its average standard. It contains some addicompendium, as well as handy and nestly. printed deak compation, especially for business men at the Kuthern ports. The lists of Chinese officialesre reproduced, but ought not to have included the name of Shen Pao-chen; and the "events connect ed with China" is a table which might be very much improved upon and given a wider scope. The missilaneous portion of the compliation is very well selected, and will be found exceedingly useful.

THE annual Procession of the Holy Cross took place at Macao on Saturday and Sunday. Over 220 Portuguese went from here to be present at the cela ontes. The Pro- intended absence from the Colony. cession was from the Church of St. Augustine to the Cathedral and back as usual, although the route was not completed owing to the rain, on the second day. H. E. the Governor of Macao was present on both occasions. On Saturday Canon Carvalho preached in the afternoon a touching sermon before the procession left the church, and on Sunday he presched in the Cathedral. On Sunday a high Pontifical Mass was calebrated,-His Lordship the Bishop of Macao officiating, and the sermon being preached by Canon Goussa. The number of brethren taking part in the procession was perhaps larger than unal. The large gathering of the brothes with their distinctive dress and the sered characters of their mission as exemplified by the observances of this anniverary were imposing in the extreme. At seim stations in the City the Cross is rested and prayer is offered to Heaven. All those connected with lighted tapers. Allogether the ceremony was a most imposing one.

In a laudatory article on Sir H. T. Irving's career, the Coylon Observer of 21st Jan. says :- " In July next Sir Henry Irving's term of six years' service as Governor of Trinidad will expire, and at this moment probably, his name stands high on the list for promotion in the Colonial Office. Indeed, we should not be surprised to find that he, and not Sir Henry Bulwer (who is very much his junter in service), will be the next Governor of the Straits Settlements. The transfer from Trinidad (salary £4,700) to Singapore (nominally £5,000) would afford in itself a pleasant change with a certain amount of promotion, while it would form a fitting preparation for the post to which, the next sea returned him inboard and he above all others, it is believed Sir Henry irving aspires, namely, the Governorship of Ceylon. THE CHINA REVIEW.

China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly

modified in certain details.

The China Review, or Notes and Queries on the Far East, is issued at intervals of two months, each number contervals. taining about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in each are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great - attention is also paid to the Review

department. Notes and Replies are classified toge-ther as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review, for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learn-ed societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bl-monthly, repertory of what scho-lars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address China Review, Hongkong.—Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the fol lowing notice of the China Review :- " Thi is the title of a publication, the first numbe of which has lately reached us from Hong kong, where it has been set on foot as some respects a continuation of Notes on Queries on China and Japan, the extinctio of which useful al a year or two ago ha been much reg .ted in Europe as well in China. Thepresent publication, judgit by the number now before us, is intended occupy a position, as regards China and th neighb uring countries, somewhat simila to that which has been filled in India by th Calcutta Review. The great degree of a tention that has been bestowed of late year upon the investigation of Chinese literatur antiquities, and social developments, to as nothing of linguistic atudies, has led to th accumulation of important stores of inform ation, rendering some such channel of pul-licity as is now provided extremely desir able; and contributions of much intere may fairly be looked for from the membe of the foreign consular services, the Chine Customs' corps, and the missionary bod among whom a high degree of Chine scholarship is now assiduously cultivate and who are severally represented in the fir number of the Review by papers high creditable to their respective authors. It a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excelle summary is presented of the chronologic problems and arguments involved in co nexion with this important work. Son translations from Chinese novels and pla are marked by both accuracy and freshno of style; and an account of the career the Chinese poet-statesman of the eleven century, Su Tung-p'o, by Mr. E. C. Bow. is not only historically valuable, but is al distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and 'Queries" ere destined to find a place in ta pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

#### THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the fereign community generally will find it to their interest to avail themselves of

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tone-in almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners.
Like English journals it contains Editorials
with Local, Shipping, and Commercial
News and Advertisements.
